## Advanced Surgical Care for Outpatient Total Joint Replacement

[scasurgery.com](http://scasurgery.com)

HAWTHORN SURGERY CENTER  
an affiliate of **SCA**

Advancements in minimally-invasive, total joint replacement surgical procedures reduce the need for traditional overnight hospital stays.

Surgical Care Affiliates and its physicians offer a more affordable, convenient and safe alternative to patients at our state-of-the-art ambulatory surgery centers. In 2016 alone, SCA performed nearly 3,000 joint procedures.

---

**Ask your doctor if outpatient total joint replacement surgery is right for you.**

---

**Surgical Care Affiliates (SCA) is a leading operator of ambulatory surgical centers (ASCs) and surgical hospitals in the United States.**

**Your surgeon has chosen to use our state-of-the-art facility for its many advantages.**

#### CLINICAL QUALITY

- Dedicated team committed to clinical quality
- Hospital -grade operating room in comfortable environment
- Ambulatory surgery centers have consistently lower rates of surgical site infections than hospitals

#### COST SAVINGS

- Patients save approximately 60% on the cost of the procedure, reflected in lower co-pays and co-insurance
- Lower cost of care helps lower total healthcare insurance premiums

#### QUICKER RECOVERY

- Return home as early as same day of surgery
- Begin working with physical therapy before returning home

#### CONVENIENCE

- Efficient operating room management with predictable start times
- Focused and trained staff working closely with surgeons to ensure excellent patient experience
- Coordinated postoperative physical therapy

“I chose outpatient surgery for its reduced cost, lower infection risk, and so I could recover at home. Staff fully explained the procedure and answered my questions. The coordinated home health and physical therapy services were exceptional.”
